

Information for Participants

Time and Place

Each day will start at 9:00 and finish around 17:00. The 20th and 21st February, the workshop will take place at the Irchel Campus, Theatersaal (Y21-F-65). The 22nd of February the Botanical Garden will host the event at the Hörsaal (BOT-P1-40).

Presentations and Posters

Speakers are asked to check for technical issues in their presentations either at the beginning of the day or during the break before their scheduled talk. Participants are given different durations for their presentations: 15min for MSc students, 20min for PhD students and 25 min for PostDocs. All the previous times include 5 minutes of questions.

Poster sessions will start from the first day, so please put up your poster Tuesday 20th in the morning from 9am to 9:30am. There will be a total of four poster sessions over two days, each one lasting 30 minutes. For each session only half of the presenters are asked to be at their posters. H Prizes will be awarded for both best presentations and best posters. The awards will be given for each academic position: there will be three best presentations (MSc, PhD and PostDoc) with three best posters (MSc, PhD, PostDoc). The winners will be chosen based on all votes gathered from participants. Please follow the instructions given during the General Announcements.

Catering

For both the 20th and 21st February there will be two coffee breaks (one in the morning and one in the afternoon) and an apero after the final session of the day. The coffee breaks include coffee, tea, orange juice, sparkling water, fruits and other foods.

For the 22nd February there will be one coffee break and a final rich apero.
